

At the conclusion of the **CRS Leadership** program, the learner will be able to:

- Understand the role of private equity, corporatization on radiology and workload.
- Understand trends in reimbursement, including alternative payment models.
- Know the legal issues facing radiology and radiation oncology and what CRS has been doing to advocate for us.
- Identify and reduce burnout.
- Hear from a California Assemblymember on healthcare reform in our state.
- Learn how to teach and meet in a digital world and harness artificial intelligence.
- Hear from colleagues and actively engage on diversity/inclusion efforts and the use of mid-level providers in practice.
- Understand how to succeed in practice after COVID is over.
